December 8, 2017

Citizens and Governing Board Tolleson Union High School District No. 214 9801 West Van Buren Street Tolleson, Arizona 85353

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Tolleson Union High School District No. 214 (District) for the fiscal year ended June 30, 2017.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Heinfeld, Meech & Co., P.C., a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2017, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2017, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Reporting Package.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

### PROFILE OF THE DISTRICT

The District is one of 58 public school districts located in Maricopa County, Arizona. It provides a program of public education from grade nine through grade twelve, with a fiscal year 2016-17 average daily membership of 11,205.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, bookstore, and athletic functions.

The District was organized in 1914 and currently encompasses approximately 102.5 square miles. Located within Maricopa County and the greater Phoenix metropolitan area, the District lies approximately ten miles west of downtown Phoenix, Arizona. Portions of the cities of Phoenix, Avondale, Glendale, and the entire city of Tolleson are included within the boundaries of the District.

The annual expenditure budget serves as the foundation for the District's financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District's Governing Board.

The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code detail for the General Fund and some Special Revenue and Capital Projects Funds. The legal level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds. Funds that are not required to legally adopt a budget may have overexpenditures of budgeted funds. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as the necessary revenue is earned. The District is not required to prepare an annual budget of revenue; therefore, a deficit budgeted fund balance may be presented. However, this does not affect the District's ability to expend monies.

### FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

<u>Local Economy</u>. The economy of the District is based primarily on the economies of the cities of Tolleson and Avondale. Commercial, agricultural and industrial influences are present throughout the District. Employment opportunities can be found locally and in the greater Phoenix metropolitan area.

Historically, Tolleson's economy has been agriculturally based. However, with the growth of Phoenix to its west, Tolleson is in a transitional period from an agricultural based economy to a commercial and industrial based economy. Tolleson has become a strong distribution hub for companies wishing to deliver products to southwestern markets due to Tolleson's location south of Interstate 10 and the interchange with Loop 101.

The District has several thriving suburbs that are projected to add over 19,000 homes in the next eight years. Encompassed in the District's boundary is the home for the Arizona Cardinals, Phoenix Coyotes and Spring Training baseball. These venues are helping to influence the development of the areas north of I-10. South of the I-10 new freeways are being built providing greater access to the rest of the valley and influencing significant residential developments.

Long-term Financial Planning. The District has increased its student count by almost 600 in the 2017-18 school year and is projected to continue growing at a significant pace. The District has crossed the threshold for qualifying for New School Construction funding from the State which would yield another \$48 million towards the construction of a new high school. The District is also seeking a \$125 million bond in November 2017 in order to maintain its schools, convert the transportation fleet to propane and supplement the construction of the new high school. The District anticipates to be planning the second new high school within five years.

In addition to the significant growth, the District is also continuing to experience an increase in the Maintenance and Operations Override that was approved by voters in November 2016 and made effective for the 2017-18 year. Voters state-wide also approved Proposition 123 in May 2016 which continues to yield additional revenues for the District.

The financial outlook for the District is stronger than it has ever been due to all of the stated contributing factors. Academically, University High (one of the six current high schools for the District), has been recognized as being one of the top high schools in the nation. The school ranks 7th in Arizona and 21st in the nation. It is the goal of the District to bring all of the high schools up to this level of standard.

### AWARDS AND ACKNOWLEDGMENT

Awards. The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2016. This was the sixth consecutive year that the District received this prestigious award. In addition, the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2016. In order to be awarded these certificates, the District published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the programs' requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the fiscal year ended June 30, 2017 certificates.

<u>Acknowledgments</u>. The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the business and finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Governing Board of the District, preparation of this report would not have been possible.

Respectfully submitted,

Nora Gutierrez Superintendent Jeremy Calles Chief Financial Officer

### INDEPENDENT AUDITOR'S REPORT

Governing Board Tolleson Union High School District No. 214

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Tolleson Union High School District No. 214 (District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Tolleson Union High School District No. 214, as of June 30, 2017, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, and net pension liability information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Introductory Section, Combining and Individual Fund Financial Statements and Schedules, and Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining and Individual Fund Financial Statements and Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Financial Statements and Schedules information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The Introductory Section and Statistical Section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2017, on our consideration of Tolleson Union High School District No. 214's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Tolleson Union High School District No. 214's internal control over financial reporting and compliance.

Heinfeld, Meech & Co., P.C.

Heinfeld, Melch & Co., P.C.

Phoenix, Arizona December 8, 2017 MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) (Required Supplementary Information)

(This page intentionally left blank)

As management of the Tolleson Union High School District No. 214 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2017. The management's discussion and analysis is presented as required supplementary information to supplement the basic financial statements. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

### FINANCIAL HIGHLIGHTS

- The District's total net position of governmental activities increased \$6.2 million which represents a four percent increase from the prior fiscal year primarily as a result of efficient management of expenses despite growing enrollment.
- General revenues accounted for \$83.2 million in revenue, or 85 percent of all current fiscal year revenues. Program specific revenue in the form of charges for services and grants and contributions accounted for \$14.9 million or 15 percent of total current fiscal year revenues.
- The District had approximately \$91.9 million in expenses related to governmental activities, an increase of seven percent from the prior fiscal year.
- Among major funds, the General Fund had \$64.2 million in current fiscal year revenues, which primarily consisted of state aid and property taxes, and \$60.4 million in expenditures. The General Fund's fund balance increased from \$31.2 million at the prior fiscal year end to \$34.7 million at the end of the current fiscal year primarily due to an increase in the maintenance and operation component of the primary property tax rate.
- The Unrestricted Capital Outlay Fund's fund balance decrease from \$12.4 million at the prior fiscal year end to \$8.4 million at the end of the current fiscal year was primarily due to utilization of fund balance in accordance with the District's capital expenditure plan.

### **OVERVIEW OF FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

### **OVERVIEW OF FINANCIAL STATEMENTS**

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues. The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, operation of non-instructional services, and interest on long-term debt.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

### **OVERVIEW OF FINANCIAL STATEMENTS**

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Classroom Site, Debt Service, and the Unrestricted Capital Outlay Funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and schedules.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. Due to their custodial nature, the fiduciary funds do not have a measurement focus.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process and pension plan. The District adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances – budget and actual has been provided for the General Fund and Classroom Site Fund as required supplementary information. Schedules for the pension plan have been provided as required supplementary information.

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$169.6 million at the current fiscal year end.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress), less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net position represents resources that are subject to external restrictions on how they may be used.

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2017 and June 30, 2016.

	Im	As of ne 30, 2017	Īı	As of une 30, 2016
Current assets	\$	72,934,071	\$	72,478,187
Capital assets, net		199,473,887		201,663,111
Total assets		272,407,958		274,141,298
Deferred outflows		15,021,447	_	11,222,518
Current liabilities		8,536,305		8,732,651
Long-term liabilities		97,639,037		107,282,184
Total liabilities		106,175,342		116,014,835
Deferred inflows		11,619,432		5,903,234
Net position:				
Net investment in capital assets		170,727,224		165,609,147
Restricted		21,217,499		25,057,598
Unrestricted		(22,310,092)		(27,220,998)
Total net position	\$	169,634,631	\$	163,445,747

At the end of the current fiscal year the District reported positive balances in two categories of net position. Unrestricted net position reported a deficit of \$22.3 million due to the District's proportionate share of the state pension plan's unfunded liability. The same situation held true for the prior fiscal year.

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

The District's financial position is the product of several financial transactions including the net result of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. The following are significant current year transactions that had an impact on the Statement of Net Position.

- The principal retirement of \$7.2 million of bonds.
- The addition of \$7.2 million in capital assets through the completion of various school improvements and purchases of vehicles, furniture and equipment.
- The decrease of \$2.3 million in pension liabilities.

**Changes in net position.** The District's total revenues for the current fiscal year were \$98.1 million. The total cost of all programs and services was \$91.4 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2017 and June 30, 2016.

	Fiscal Year Ended June 30, 2017		Fiscal Year Ended June 30, 2016	
Revenues:		ine 30, 2017		ine 30, 2010
Program revenues:				
Charges for services	\$	4,318,149	\$	4,204,421
Operating grants and contributions		9,087,941		8,507,803
Capital grants and contributions		1,535,155		1,433,382
General revenues:				
Property taxes		33,869,806		35,842,069
Investment income		322,064		276,012
Unrestricted county aid		3,915,456		3,592,379
Unrestricted state aid		45,071,614		42,025,222
Total revenues		98,120,185		95,881,288
Expenses:		_		_
Instruction		47,694,713		45,778,279
Support services – students and staff		10,452,356		9,246,300
Support services – administration		9,477,013		8,859,722
Operation and maintenance of plant services		12,688,188		10,762,379
Student transportation services		4,791,320		4,565,677
Operation of non-instructional services		5,810,787		5,333,271
Interest on long-term debt		1,016,924		1,247,057
Total expenses		91,931,301		85,792,685
Changes in net position		6,188,884		10,088,603
Net position, beginning		163,445,747		153,357,144

### **Expenses - Fiscal Year 2017**

The following are significant current year transactions that had an impact on the change in net position.

- A decrease of \$2.0 million in property tax revenues as a result of a decrease in overall tax rates.
- An increase of \$3.0 million unrestricted state revenues due to increased enrollment.

The following table presents the cost of the District's major functional activities. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

	Year Ended June 30, 2017		Year Ended June 30, 2016	
	Total	Net (Expense)/	Total	Net (Expense)/
	Expenses	Revenue	Expenses	Revenue
Instruction	\$ 47,694,713	\$ (42,136,434)	\$ 45,778,279	\$ (40,041,661)
Support services – students and staff	10,452,356	(8,157,932)	9,246,300	(7,281,201)
Support services – administration	9,477,013	(9,115,493)	8,859,722	(8,257,922)
Operation and maintenance of plant services	12,688,188	(11,527,361)	10,762,379	(10,296,062)
Student transportation services	4,791,320	(4,725,506)	4,565,677	(4,511,158)
Operation of non-instructional services	5,810,787	(310,406)	5,333,271	(12,018)
Interest on long-term debt	1,016,924	(1,016,924)	1,247,057	(1,247,057)
Total	\$ 91,931,301	\$ (76,990,056)	\$ 85,792,685	\$ (71,647,079)

- The cost of all governmental activities this year was \$91.9 million.
- Federal and State governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$14.9 million.
- Net cost of governmental activities of \$77.0 million was financed by general revenues, which are made up of primarily property taxes of \$33.9 million and state aid of \$45.1 million.

### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$55.2 million, an increase of \$544,591 due primarily to the District adhering to its five year capital expenditure plan while granting employee raises to maintain the District's competitiveness as an educational employer.

### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The General Fund comprises 63 percent of the total fund balance. Approximately 98 percent of the General Fund's fund balance is unassigned.

The General Fund is the principal operating fund of the District. The increase in fund balance of \$3.4 million to \$34.7 million was a result of increased state aid revenues from increasing enrollment.

Fund balance in the Classroom Site Fund increased \$410,940, as a result of increased state aid revenues.

The fund balance of the Debt Service Fund increased \$25,827, which is not significant.

The fund balance of the Unrestricted Capital Outlay Fund decreased \$4.0 million due to planned utilization of fund balance consistent with the District's five year capital expenditure plan.

### **BUDGETARY HIGHLIGHTS**

Over the course of the year, the District revised the General Fund annual expenditure budget. The difference between the original budget and the final amended budget was an increase of \$9.8 million, or 15 percent due to a transfer of budget capacity from the Unrestricted Capital Outlay Fund to the General Fund.

Significant variances for the final amended budget and actual revenues resulted from the District not being required by the State of Arizona to prepare a revenue budget. A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information. The significant expenditure variances between the final amended budget and actual amounts are summarized as follows:

• The favorable variances in instruction, operation and maintenance of plant, and support services-administration was due to the transfer of budget capacity mentioned above. The District plans on utilizing the excess budget capacity in future years.

### CAPITAL ASSETS AND DEBT ADMINISTRATION

**Capital Assets**. At year end, the District had invested \$284.8 million in capital assets, including school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net increase prior to depreciation of \$6.7 million from the prior fiscal year, primarily due to the completion of several construction projects at school sites. Total depreciation expense for the current fiscal year was \$9.1 million.

The following schedule presents a summary of capital asset balances for the fiscal years ended June 30, 2017 and June 30, 2016.

	As of	As of	
	June 30, 2017	June 30, 2016	
Capital assets – non-depreciable	\$ 21,637,272	\$ 22,808,891	
Capital assets – depreciable, net	177,836,615	178,854,220	
Total	\$ 199,473,887	\$ 201,663,111	

The estimated cost to complete current construction projects is \$2.5 million.

Additional information on the District's capital assets can be found in Note 6.

**Debt Administration.** At year end, the District had \$28.7 million in long-term debt outstanding, \$7.5 million due within one year. Long-term debt decreased by \$7.3 million.

The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds (up to 15 percent of the total net full cash assessed valuation) and the statutory debt limit on Class B bonds (the greater of 10 percent of the net full cash assessed valuation or \$1,500 per student). The current total debt limitation for the District is \$206.2 million and the Class B debt limit is \$137.5 million, both of which are greater than the District's total outstanding general obligation and Class B debt, respectively.

Additional information on the District's long-term debt can be found in Notes 7 through 9.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Many factors were considered by the District's administration during the process of developing the fiscal year 2017-18 budget. Among them:

- Fiscal year 2016-17 budget balance carry forward (estimated \$15.1 million).
- District student population (estimated 11,700).

Also considered in the development of the budget is the local economy and inflation of the surrounding area.

Budgeted expenditures in the General Fund increased eight percent to \$80.2 million in fiscal year 2017-18. This resulted from increases in average daily membership, the base level support from the State of Arizona, and budget carry forward. State aid and property taxes are expected to be the primary funding sources. No new programs were added to the 2017-18 budget.

### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have questions about this report or need additional information, contact the Business and Finance Department, Tolleson Unified School District No. 214, 9801 West Van Buren Street, Tolleson, Arizona 85353.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Tolleson Union High School District No. 214 (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

## A. Reporting Entity

The Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, bookstore and athletic functions.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### **B.** Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. For the most part, the effect of internal activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the District. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, unrestricted county and state aid, and other items not included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

## C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Financial Statements — Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. As permitted by generally accepted accounting principles the District applies the "early recognition" option for debt service payments. Property tax resources are provided in the Debt Service Fund during the current year for the payment of debt service principal and interest due early in the following year (less than one month). Therefore, the expenditures and related liabilities have been recognized in the current period.

Property taxes, state and county aid and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenues arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

Delinquent property taxes and other receivables that will not be collected within the available period have been reported as unavailable revenues on the governmental fund financial statements.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The District reports the following major governmental funds:

General Fund – The General Fund is the District's primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. The General Fund includes the District's Maintenance and Operation Fund as well as certain activities budgeted in separate funds in accordance with A.R.S. These funds are maintained as separate funds for budgetary purposes but do not meet the criteria for separate reporting in the financial statements.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Classroom Site Fund</u> – The Classroom Site Fund accounts for the financial activity for the portion of state sales tax collections and permanent state school fund earnings as approved by the voters in 2000.

<u>Debt Service Fund</u> – The Debt Service Fund accounts for the accumulation of resources for and the payment of, long-term debt principal, interest and related costs.

<u>Unrestricted Capital Outlay Fund</u> – The Unrestricted Capital Outlay Fund accounts for transactions relating to the acquisition of capital items.

Additionally, the District reports the following fund type:

<u>Fiduciary Funds</u> – The Fiduciary Funds are Agency Funds which account for resources held by the District on behalf of others. This fund type includes the Student Activities Fund which accounts for monies raised by students to finance student clubs and organizations held by the District as an agent. In addition, funds that account for employee withholdings before the monies are remitted to the appropriate entities are included in the Agency Funds.

The Agency Funds are custodial in nature and do not have a measurement focus and are reported using the accrual basis of accounting. The Agency Funds are reported by fund type.

#### **D.** Cash and Investments

A.R.S. require the District to deposit all cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash of the Debt Service and Bond Building Funds that may be invested separately. Interest earned from investments purchased with pooled monies is allocated to each of the District's funds based on their average balances. As required by statute, interest earnings of the Bond Building Fund are recorded initially in that fund, but then transferred to the Debt Service Fund. All investments are stated at fair value.

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pools; obligations issued and guaranteed by the United States or any of its agencies or instrumentalities; specified state and local government bonds and notes; and interest bearing savings accounts or certificates of deposit.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. Monies in these funds may also be invested. In addition, statute authorizes the District to maintain various bank accounts such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes and employee insurance programs. Some of these bank accounts may be interest bearing.

Statute does not include any requirements for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk. Statute requires collateral for deposits of Bond Building and Debt Service Funds monies in interest bearing savings accounts and certificates of deposit at 101 percent of all deposits not covered by federal depository insurance.

Arizona statute requires a pooled collateral program for public deposits and a Statewide Collateral Pool Administrator (Administrator) in the State Treasurer's Office. The purpose of the pooled collateral program is to ensure that governmental entities' public deposits placed in participating depositories are secured with collateral of 102 percent of the public deposits, less any applicable deposit insurance. An eligible depository may not retain or accept any public deposit unless it has deposited the required collateral with a qualified escrow agent or the Administrator. The Administrator manages the pooled collateral program, including reporting on each depository's compliance with the program.

## **E.** Investment Income

Investment income is composed of interest, dividends and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the fund financial statements.

## F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Interfund balances between governmental funds are eliminated on the Statement of Net Position.

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## G. Property Tax Calendar

The County Treasurer is responsible for collecting property taxes for all governmental entities within the county. The county levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asset does not arise.

## H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed in the government-wide financial statements and as expenditures when purchased on the fund financial statements.

### I. Capital Assets

Capital assets, which include land and improvements; buildings and improvements; vehicles, furniture, and equipment; and construction in progress, are reported in the government-wide financial statements.

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life of more than one year. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Land improvements 10 - 20 years Buildings and improvements 5 - 60 years Vehicles, furniture and equipment 3 - 20 years

### J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

## **K.** Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay in varying amounts. Only benefits considered vested are recognized in the financial statements. The liability for vacation and sick leave is reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

#### L. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## M. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Deferred amounts on refunding result from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

## N. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds.

## O. Net Position Flow Assumption

In the government-wide financial statements the District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available.

## P. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### NOTE 2 – FUND BALANCE CLASSIFICATIONS

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

**Nonspendable.** The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact.

**Restricted.** Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

**Committed.** The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action of the Governing Board. Those committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The District does not have a formal policy or procedures for the utilization of committed fund balance, accordingly, no committed fund balance amounts are reported.

Assigned. Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Governing Board or a management official delegated that authority by the formal Governing Board action. The District does not have a formal policy or procedures for the utilization of assigned fund balance, accordingly, no assigned fund balance amounts are reported.

*Unassigned*. Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

## NOTE 2 – FUND BALANCE CLASSIFICATIONS

The table below provides detail of the major components of the District's fund balance classifications at year end.

		General Fund	Classroom Site Fund	Debt Service Fund	nrestricted pital Outlay Fund	Non-Major overnmental Funds
Fund Balances:						
Nonspendable:						
Prepaid items	\$	748,155	\$	\$	\$	\$
Restricted:						
Debt service				351,946		
Capital projects					8,439,861	2,615,951
Voter approved initiatives			2,263,538			1,461,430
Federal and state projects						779,977
Food service						2,457,805
Civic center						543,168
Community school						169,073
Extracurricular activities						290,487
Gifts and donations						412,974
Joint technical education						767,594
Other purposes						102,282
Unassigned	3	3,904,172				(83,787)
Total fund balances	\$ 3	4,652,327	\$2,263,538	\$ 351,946	\$ 8,439,861	\$ 9,516,954

## NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

<u>Individual Deficit Fund Balance</u> – At year end, the Other Federal Projects Fund, a non-major governmental fund, reported a deficit in fund balance of \$83,787. The deficit arose because of operations during the year and prior years. Additional revenues received in fiscal year 2017-18 are expected to eliminate the deficit in the Other Federal Projects Fund.

<u>Excess Expenditures Over Budget</u> – At year end, the District had expenditures in funds that exceeded the budgets, however this does not constitute a violation of any legal provisions.

#### **NOTE 4 – CASH AND INVESTMENTS**

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the District's deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District's deposits was \$233,771 and the bank balance was \$321,206. At year end, \$71,206 of the District's deposits were covered by collateral held by the pledging financial institution's trust department or agent but not in the District's name.

Fair Value Measurements. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices in active markets for identical assets
- Level 2 inputs are significant other observable inputs
- Level 3 inputs are significant unobservable inputs

The County Treasurer's pool is an external investment pool with no regulatory oversight. The pool is not required to register (and is not registered) with the Securities and Exchange Commission. The fair value of each participant's position in the County Treasurer investment pool approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments. Participants in the pool are not required to categorize the value of shares in accordance with the fair value hierarchy.

At June year end, the District's investments consisted of the following:

	Average Maturities	Fair Value
County Treasurer's investment pool	457 days	\$ 57,399,727
Total		\$ 57,399,727

*Interest Rate Risk*. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Credit Risk.* The District has no investment policy that would further limit its investment choices. As of year end, the District's investment in the County Treasurer's investment pool did not receive a credit quality rating from a national rating agency.

Custodial Credit Risk – Investments. The District's investment in the County Treasurer's investment pool represents a proportionate interest in the pool's portfolio; however the District's portion is not identified with specific investments and is not subject to custodial credit risk.

### **NOTE 5 – RECEIVABLES**

Receivable balances, net of allowance for uncollectibles, have been disaggregated by type and presented separately in the financial statements with the exception of due from governmental entities. Due from governmental entities, net of allowance for uncollectibles, as of year end for the District's individual major funds and non-major governmental funds in the aggregate, were as follows:

		Unrestricted	Non-Major
	General	Capital Outlay	Governmental
	Fund	Fund	Funds
Due from other governmental entities:			
Due from federal government	\$	\$	\$ 517,562
Due from state government	12,618,556	197,953	104,853
Due from other districts			46,863
Net due from governmental entities	\$ 12,618,556	\$ 197,953	\$ 669,278

## **NOTE 6 – CAPITAL ASSETS**

A summary of capital asset activity for the current fiscal year follows:

	Beginning			Ending
Governmental Activities	Balance	Increase	Decrease	Balance
Capital assets, not being depreciated:				
Land	\$ 20,625,106	\$	\$	\$ 20,625,106
Construction in progress	2,183,785	986,336	2,157,955	1,012,166
Total capital assets, not being depreciated	22,808,891	986,336	2,157,955	21,637,272
Capital assets, being depreciated:				
Land improvements	16,718,259	2,294,850		19,013,109
Buildings and improvements	211,020,420	3,520,662		214,541,082
Vehicles, furniture and equipment	27,574,059	2,551,921	527,135	29,598,845
Total capital assets being depreciated	255,312,738	8,367,433	527,135	263,153,036
Less accumulated depreciation for:				
Land improvements	(4,032,705)	(962,711)		(4,995,416)
Buildings and improvements	(59,405,806)	(5,658,230)		(65,064,036)
Vehicles, furniture and equipment	(13,020,007)	(2,525,005)	(288,043)	(15,256,969)
Total accumulated depreciation	(76,458,518)	(9,145,946)	(288,043)	(85,316,421)
Total capital assets, being depreciated, net	178,854,220	(778,513)	239,092	177,836,615
Governmental activities capital assets, net	\$ 201,663,111	\$ 207,823	\$ 2,397,047	\$ 199,473,887

#### **NOTE 6 – CAPITAL ASSETS**

Depreciation expense was charged to governmental functions as follows:

Instruction	\$ 3,094,214
Support services – students and staff	202,952
Support services – administration	1,162,295
Operation and maintenance of plant services	3,637,982
Student transportation services	756,475
Operation of non-instructional services	 292,028
Total depreciation expense – governmental activities	\$ 9,145,946

<u>Construction Commitments</u> – At year end, the District had contractual commitments related to various renovation projects at Tolleson, Sierra Linda, Copper Canyon, Westview, and La Joya Community High Schools, as well as other school upgrades. At year end the District had spent \$1.0 million on the projects and had estimated remaining contractual commitments of \$2.5 million. These projects are being funded with property taxes levied for capital purposes and monies received for joint technical education purposes.

### NOTE 7 – OBLIGATIONS UNDER CAPITAL LEASES

The District has acquired copiers under the provisions of a long-term lease agreement classified as a capital lease. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of its future minimum lease payments as of the inception date. Revenues from the Unrestricted Capital Outlay Fund are used to pay the capital lease obligations.

The assets acquired through capital leases that meet the District's capitalization threshold are as follows. Amortization of assets held under capital leases is included with depreciation expense.

	vernmental Activities
Asset:	_
Vehicles, furniture and equipment	\$ 452,697
Less: Accumulated depreciation	309,343
Total	\$ 143,354

## **NOTE 7 – OBLIGATIONS UNDER CAPITAL LEASES**

The future minimum lease obligations and the net present value of these minimum lease payments at year end were as follows:

Year Ending June 30:	 vernmental ctivities
2018	\$ 102,000
2019	52,427
Total minimum lease payments	 154,427
Less: amount representing interest	 7,764
Present value of minimum lease payments	 146,663
Due within one year	\$ 96,223

## NOTE 8 – GENERAL OBLIGATION BONDS PAYABLE

Bonds payable at year end, consisted of the following outstanding general obligation bonds. The bonds are both callable and noncallable with interest payable semiannually. Property taxes from the Debt Service Fund are used to pay bonded debt.

	Original			Outstanding	
	Amount	Interest	Remaining	Principal	Due Within
Purpose	Issued	Rates	Maturities	June 30, 2017	One Year
Governmental activities:					
School Improvement Bonds,					
Project of 2007, Series A (2008)	\$ 13,000,000	4.00-4.125%	7/1/17-20	\$ 7,000,000	\$ 1,400,000
School Improvement Bonds,					
Project of 2007, Series B (2009)	17,900,000	3.125-3.25%	7/1/17-18	10,000,000	5,000,000
School Improvement Bonds,					
Project of 2007, Series C (2010)	6,500,000	3.25-3.75%	7/1/17-21	5,100,000	1,000,000
School Improvement Bonds,					
Project of 2007, Series D (2011)	6,500,000	3.25-3.5%	7/1/19-21	6,500,000	
Total				\$ 28,600,000	\$ 7,400,000

#### NOTE 8 – GENERAL OBLIGATION BONDS PAYABLE

Annual debt service requirements to maturity on general obligation bonds at year end are summarized as follows:

		 Governmental Activities				
Year ending June 30	):	Principal		Interest		
	2018	\$ 7,400,000	\$	885,125		
	2019	7,600,000		631,375		
	2020	4,500,000		417,500		
	2021	4,500,000		249,375		
	2022	4,600,000		81,875		
Total		\$ 28,600,000	\$	2,265,250		

### NOTE 9 – CHANGES IN LONG-TERM LIABILITIES

Long-term liability activity for the current fiscal year was as follows:

	Beginning					Ending		ue Within
	Balance	_A	dditions	F	Reductions	 Balance	(	One Year
Governmental activities:								
General obligation bonds	\$ 35,800,000	\$		\$	7,200,000	\$ 28,600,000	\$	7,400,000
Obligations under capital leases	239,239				92,576	146,663		96,223
Net pension liability	69,903,127				2,302,986	67,600,141		
Compensated absences payable	1,339,818		666,317		713,902	 1,292,233		190,000
Governmental activity long-term			_		_			_
liabilities	\$107,282,184	\$	666,317	\$	10,309,464	\$ 97,639,037	\$	7,686,223

## NOTE 10 – INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

At year end, interfund balances were as follows:

### Due to/from other funds:

At year end, several non-major governmental funds had negative cash balances in the Treasurer's pooled cash accounts of \$289,303. Negative cash on deposit with the County Treasurer was reduced by interfund borrowing with the General Fund. All interfund balances are expected to be paid within one year.

#### NOTE 10 – INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

#### **Interfund transfers:**

		Transfers in					
		Non-Major					
	General	Governmental					
Transfers out	Fund	Funds	Total				
General Fund	\$	\$ 1,299	\$ 1,299				
Non-Major Governmental Funds	580,541		580,541				
Total	\$ 580,541	\$ 1,299	\$ 581,840				

Transfers between funds were used to (1) move federal grant funds restricted for indirect costs and (2) close inactive funds.

### **NOTE 11 – CONTINGENT LIABILITIES**

<u>Compliance</u> – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

#### NOTE 12 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the District joined the Arizona School Risk Retention Trust, Inc. (ASRRT). ASRRT is a public entity risk pool currently operating as a common risk management and insurance program for school districts and community colleges in the State. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District joined the Arizona School Alliance for Workers' Compensation, Inc. (Alliance) together with other school districts in the state for risks of loss related to workers' compensation claims. The Alliance is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays quarterly premiums to the Alliance for its employee workers' compensation coverage. The agreement provides that the Alliance will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

#### NOTE 12 – RISK MANAGEMENT

The District joined the Valley Schools Employee Benefit Trust (VSEBT) for risks of loss related to employee health and accident claims. VSEBT is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays a monthly premium to VSEBT for employees' health and accident insurance coverage. The agreement provides that VSEBT will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

### NOTE 13 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

**Plan Description.** District employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on the ASRS website at <a href="https://www.azasrs.gov">www.azasrs.gov</a>.

**Benefits Provided.** The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

	Retirement Initial				
	Member	ship Date:			
	Before July 1, 2011	On or After July 1, 2011			
Years of service and	Sum of years and age equals 80	30 years age 55			
age required to	10 years age 62	25 years age 60			
receive benefit	5 years age 50*	10 years age 62			
	Any years age 65	5 years age 50*			
		Any years age 65			
Final average salary is based on	Highest 36 months of last 120 months	Highest 60 months of last 120 months			
Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%			
	*With actuarially reduced benefi	ts			

#### NOTE 13 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Contributions. In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the current fiscal year, active ASRS members were required by statute to contribute at the actuarially determined rate of 11.48 percent (11.34 percent for retirement and 0.14 percent for long-term disability) of the members' annual covered payroll, and the District was required by statute to contribute at the actuarially determined rate of 11.48 percent (10.78 percent for retirement, 0.56 percent for health insurance premium benefit, and 0.14 percent for long-term disability) of the active members' annual covered payroll. The District's contributions to the pension plan for the year ended June 30, 2017 were \$4,770,134.

In addition, the District was required by statute to contribute at the actuarially determined rate of 9.47 percent (9.17 for retirement, 0.21 percent for health insurance premium benefit, and 0.09 percent for long-term disability) of annual covered payroll of retired members who worked in positions that would typically be filled by an employee who contributes to ASRS.

The District's pension contributions are paid by the same funds as the employee's salary, with the largest component coming from the General Fund. The District's contributions for the current and two preceding years for OPEB, all of which were equal to the required contributions, were as follows:

		Hea	alth Benefit	Lo	ng-Term
		St	Supplement		sability
			Fund		Fund
Year ending June 3	30:		<u> </u>		
	2017	\$	247,799	\$	61,950
	2016		195,124		46,830
	2015		243,775		49,581

#### NOTE 13 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

**Pension Liability.** At June 30, 2017, the District reported a liability of \$67.6 million for its proportionate share of the net pension liability of the ASRS. The net pension liability was measured as of June 30, 2016. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2015, to the measurement date of June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2016, the District's proportion was .42 percent, which was a decrease of .03 percent from its proportion measured as of June 30, 2015.

**Pension Expense and Deferred Outflows/Inflows of Resources.** The District has deferred outflows and inflows of resources related to the net pension liability of retirement benefits. Certain changes in the net pension liability are recognized as pension expense over a period of time rather than the year of occurrence. For the year ended June 30, 2017, the District recognized pension expense of \$4.4 million and reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and actual experience	\$ 410,802	\$4,650,396
Changes of assumptions or other inputs		3,576,587
Net difference between projected and actual earnings on		
pension plan investments	7,325,605	
Changes in proportion and differences between		
contributions and proportionate share of contributions	2,514,906	3,392,449
Contributions subsequent to the measurement date	4,770,134	
Total	\$15,021,447	\$11,619,432

The deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date as reported in the table above will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Year	Ending.	June	3(	):
--	------	---------	------	----	----

2018	\$ (2,595,817)
2019	(3,502,850)
2020	2,676,470
2021	2,054,078

#### NOTE 13 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

**Actuarial Assumptions.** The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	June 30, 2015
Actuarial roll forward date	June 30, 2016
Actuarial cost method	Entry age normal
Investment rate of return	8.0%
Projected salary increases	3.0-6.75%
Inflation	3.0%
Permanent base increases	Included
Mortality rates	1994 GAM Scale BB

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2012. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2013, actuarial valuation. The study did not include an analysis of the assumed investment rate of return.

The long-term expected rate of return on ASRS pension plan investments was determined to be 8.75 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term
	Target	<b>Expected Real</b>
Asset Class	Allocation	Rate of Return
Equity	58%	6.73%
Fixed income	25	3.70
Real estate	10	4.25
Multi-asset	5	3.41
Commodities	2	3.84
Total	100%	

#### NOTE 13 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

**Discount Rate.** The discount rate used to measure the ASRS total pension liability was 8.0 percent, which is less than the long-term expected rate of return of 8.75 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 8.0 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1%	Current	
	Decrease	Discount Rate	1% Increase
	(7.0%)	(8.0%)	(9.0%)
Proportionate share of the net			
pension liability	\$86,195,313	\$ 67,600,141	\$52,690,878

**Pension Plan Fiduciary Net Position.** Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report. The report is available on the ASRS website at <a href="https://www.azasrs.gov">www.azasrs.gov</a>.

## **NOTE 14 – SUBSEQUENT EVENT**

In November 2017, voters of the District authorized a bond override of \$125 million. Future bond issuances under this authorization will improve existing District facilities, expand technology in the classroom, and support the construction of a new high school.

#### TOLLESON UNION HIGH SCHOOL DISTRICT NO. 214 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2017

#### NOTE 1 – BUDGETARY BASIS OF ACCOUNTING

The District budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for the following item.

• Certain activities reported in the General Fund are budgeted in separate funds in accordance with Arizona Revised Statutes.

The following schedule reconciles expenditures and fund balances at the end of year.

	Total	Fund Balances
	Expenditures	End of Year
Statement of Revenues, Expenditures and Changes in		
Fund Balances – Governmental Funds	\$ 60,437,813	\$ 34,652,327
Activity budgeted as special revenue funds	(1,703,831)	(3,439,029)
Schedule of Revenues, Expenditures and Changes in		
Fund Balances – Budget and Actual – General Fund	\$ 58,733,982	\$ 31,213,298

#### NOTE 2 – PENSION PLAN SCHEDULES

**Actuarial Assumptions for Valuations Performed.** The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated, which is the most recent actuarial valuation. The actuarial assumptions used are disclosed in the notes to the financial statements.

**Factors that Affect Trends.** The actuarial assumptions used in the June 30, 2015, valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2012. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2013, actuarial valuation. The study did not include an analysis of the assumed investment rate of return.

#### SPECIAL REVENUE FUNDS

<u>Instructional Improvement</u> - to account for the activity of monies received from gaming revenue.

<u>County, City and Town Grants</u> - to account for monies received from county, city and town grants.

**Student Success** - to account for student success monies.

<u>Title I Grants</u> - to account for financial assistance received for the purpose of improving the teaching and learning of children failing, or most at-risk of failing, to meet challenging state academic standards.

<u>Professional Development and Technology Grants</u> - to account for financial assistance received to increase student academic achievement through improving teacher quality.

<u>Title IV Grants</u> - to account for financial assistance received for chemical abuse awareness programs and expanding projects that benefit educational and health needs of the communities.

<u>Limited English & Immigrant Students</u> - to account for financial assistance received for educational services and costs for limited English and immigrant children.

<u>Indian Education</u> - to account for financial assistance received for Indian education at preschool, elementary, secondary and adult levels.

<u>Special Education Grants</u> - to account for supplemental financial assistance received to provide a free, appropriate public education to disabled children.

<u>Johnson O'Malley</u> - to account for financial assistance received to meet the unique educational needs of eligible Indian children.

<u>Vocational Education</u> - to account for financial assistance received for preparation of individuals for employment or advancement in a career not requiring a baccalaureate or advanced degree.

<u>Homeless Education</u> - to account for financial assistance received for the education of homeless students.

<u>Medicaid Reimbursement</u> - to account for reimbursements related to specific health services provided to eligible students.

**<u>E-Rate</u>** - to account for financial assistance received for broadband internet and telecommunication costs.

<u>Other Federal Projects</u> - to account for financial assistance received for other supplemental federal projects.

<u>State Vocational Education</u> - to account for financial assistance received for the preparation of individuals for employment.

Other State Projects - to account for financial assistance received for other state projects.

**School Plant** - to account for proceeds from the sale or lease of school property.

<u>Food Service</u> - to account for the financial activity of school activities that have as their purpose the preparation and serving of regular and incidental meals and snacks in connection with school functions.

<u>Civic Center</u> - to account for monies received from the rental of school facilities for civic activities.

<u>Community School</u> - to account for activity related to academic and skill development for all citizens.

<u>Auxiliary Operations</u> - to account for activity arising from bookstore, athletic and miscellaneous District related operations.

<u>Extracurricular Activities Fees Tax Credit</u> - to account for activity related to monies collected in support of extracurricular activities to be taken as a tax credit by the tax payer in accordance with A.R.S. §43-1089.01.

<u>Gifts and Donations</u> - to account for activity related to gifts, donations, bequests and private grants made to the District.

<u>Career and Technical Education and Vocational Education Projects</u> - to account for activity related to the production and subsequent sale of items produced in an instructional program by career and technical and vocational education pupils.

**<u>Fingerprint</u>** - to account for activity of fingerprinting employees as mandated by the State.

<u>Textbooks</u> - to account for monies received from students to replace or repair lost or damaged textbooks.

**Litigation Recovery -** to account for monies received for and derived from litigation.

**Indirect Costs** - to account for monies received from federal projects for administrative costs.

<u>Grants and Gifts to Teachers</u> - to account for grants and gifts under \$1,500 received from private sources that are designated for use by a teacher for instructional purposes.

**Advertisement** - to account for monies received from the sale of advertising.

<u>Joint Technical Education</u> - to account for monies received from Joint Technical Education Districts for vocational education programs.

### STATISTICAL SECTION

The statistical section presents financial statement trends as well as detailed financial and operational information not available elsewhere in the report. The statistical section is intended to enhance the reader's understanding of the information presented in the financial statements, notes to the financial statements, and other supplementary information presented in this report. The statistical section is comprised of the five categories of statistical information presented below.

#### **Financial Trends**

These schedules contain information on financial trends to help the reader understand how the District's financial position and financial activities have changed over time.

### **Revenue Capacity**

These schedules contain information to help the reader assess the factors affecting the District's ability to generate revenue.

### **Debt Capacity**

These schedules present information to help the reader evaluate the District's current levels of outstanding debt as well as assess the District's ability to make debt payments and/or issue additional debt in the future.

### **Demographic and Economic Information**

These schedules present various demographic and economic indicators to help the reader understand the environment in which the District's financial activities take place and to help make comparisons with other school districts.

### **Operating Information**

These schedules contain information about the District's operations and various resources to help the reader draw conclusions as to how the District's financial information relates to the services provided by the District.

**Note:** For locally assessed property (i.e., excluding mines, utilities, etc.) Proposition 117, approved by voters in 2012, amended the Arizona Constitution to require that all property taxes after fiscal year 2014-15 be based upon property values limited to five percent in annual growth. The aggregate assessed value of all taxable properties within a taxing jurisdiction (i.e., after applying assessment ratios based on the use of a property), including property values with a growth limit, is currently referred to as net limited assessed value and formerly as primary assessed value. In accordance with Proposition 117, this value is used for all taxing purposes beginning fiscal year 2015-16. Aggregate assessed value without a growth limit is currently referred to as net full cash assessed value and formerly as secondary assessed value. This remains the value utilized for determining debt capacity limits.

Source: The source of this information is the State and County Abstract of the Assessment Roll, Arizona Department of Revenue.

Note: On November 6, 2012, voters approved Proposition 117, an amendment to the Arizona Constitution. Beginning with Tax Year 2015 (Fiscal Year 2016), both primary and secondary taxes are levied against the net limited assessed value. Primary taxes are used for general District operations. Secondary taxes are used to service District bonded debt requirement and other voter-approved overrides.

Total net debt applicable to the limit as a percentage of debt limit		46%		41%		35%		36%		40%

**Source:** The source of this information is the District's financial records.

**Notes:** 1) The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds outstanding and the statutory debt limit on Class B bonds outstanding. The calculations of the debt margins are presented in detail for the current fiscal year only.

2) Prior to FY17, net bond premium was restricted by amount and not subject to the statutory debt limit. Beginning with FY17, any additional net premium used for capital projects, bond counsel, printing and preparation of offering documents, a financial advisor, paying agent costs or to pay down debt is counted against both debt limits with the exception of amounts of premium deposited into the Debt Service Fund or a refunding escrow to pay interest payments.
