

About the Local Wellness Policy Activity and Assessment Tool

LEAs are required to have a written local wellness policy (LWP), and at least once every three years, they must assess the implementation of what is written in the policy. Some written components can be easily assessed by asking the question, “Did we do this?” while others are more difficult to measure. ADE recommends using this tool to document the exact actions you expect to be completed and determine if your LEA is doing what is written in the policy. The District Wellness Committee can use this list of actions to select from when writing goals and policies in the LWP. Note, you should select at least one action from each section; selecting all actions is not required. Some actions are pre-checked because they are requirements of operating the National School Lunch Program. ADE recommends writing each of the selected actions into your LWP. This tool is designed to be an action plan that guides your implementation and assessment of your LWP.

I. TUHSD WELLNESS GOALS

The LWP must include goals in the areas of Nutrition Promotion, Nutrition Education, Physical Activity, and Other Activities to Promote Student Wellness. For each section, choose the activities you’ll implement and determine how many schools will work toward implementing the activities. Then, use the activities selected to write a goal in each area on the *LWP Template*. When monitoring implementation of the LWP at each school, record the number of schools that successfully completed the action(s) selected.

GOAL: PHYSICAL ACTIVITY <i>Physical activity is defined by the Centers for Disease Control and Prevention (CDC) as any bodily movement produced by skeletal muscles that result in energy expenditure. Regular physical activity in childhood and adolescence improves strength and endurance, helps build healthy bones and muscles, helps control weight, reduces anxiety and stress, increases self-esteem and may improve blood pressure and cholesterol levels. Incorporating regular physical activity in your school(s) is an important contributor to student wellness.</i>	Year 1		Year 2		Year 3

IV. IMPLEMENTATION, MONITORING, ACCOUNTABILITY AND NOTIFICATION

Convening a district wellness committee and writing the policy is the first step in the LWP process. However, districts are also responsible for implementing, monitoring, and notifying the public about the LWP. Annual reviews and updates to the policy are recommended, while a thorough assessment of compliance is required every three years.

IMPLEMENTATION PLAN <i>Once the wellness policy is written, the district will need to communicate the goals and policies to all schools. Schools will then implement the policies and begin working toward the goals as appropriate. The implementation of the policies should be consistent across all schools, but the actions that work toward meeting the goals may vary from school to school.</i>	Year 1		Year 2		Year 3
