REGISTRATION

COURSES OFFERED

ASL

Learn the basics of American Sign Language in this introductory course.

DO-IT-YOURSELF

Art projects, hands-on crafts, and design & production.

PICKLEBALL

Learn how to play this fast-growing sport, then participate in our tournament!

VOLLEYBALL

Open to anyone interested in learning the game or improving their skills.

YOGA

Introductory yoga for all levels.

FORENSICS

Study fingerprinting, hair analysis, DNA, and blood typing all to solve a mystery!

ROBOTICS

Learn the basics of robotics and build a mechanical claw, a walking robot, and more!

TEST PREP

Take your ACT scores from this year and improve them with a custom-made test prep course.

HYDROPONICS &

RENEWABLE ENERGY

Build & test a wind turbine, create a working solar panel, and explore nuclear fusion.

Learn how to grow plants without soil. Work in a group to design & create a hydroponic model that will compete against others for a prize!
