

Join us for West Point High School's

FRESHMEN

ON

FIRE!

Freshmen on FIRE is a summer camp open to any incoming 9th grader. The camp is a transition to high school experience - campers will learn foundation skills in Math and English as well as engage in daily social-emotional learning lessons. Each week will also have rotating enrichment activities designed to be cooperative, educational, and - most importantly - FUN! Freshmen on FIRE Camp will be hosted at West Point High School; camp registration, transportation, and breakfast & lunch are **free of charge**.

Enrichment Activities

Our enrichment activities will range from fun STEM-based activities like designing & building rollercoasters to learning a new language and even getting involved in a volunteer service project. All activities will take place on West Point's campus and will rotate on a day-by-day basis.

Social Emotional Learning

Campers will participate in lessons and activities targeting transition to high school skills such as time management, goal-setting, relationship building, organization, stress reduction, emotional regulation, and self-awareness.

Sign-Up Here!

Use your phone camera to scan the QR code & access our sign-up form or go to <https://forms.office.com/r/hDLB8G6ieB>
